Master in Vehicle Engineering (M Sc)

Name of faculty: AUDI Hungaria Faculty of Automotive Engineering
Language of instruction: English
Type and name of degree: Vehicle Engineer M Sc
Duration of studies: 4 semesters - Full time program
Degree (BA, MA, PhD, etc): MSc

Introduction of the program

The goal of the Vehicle Engineering master’s program is to educate future engineers to have general knowledge in natural and engineering sciences and high level, specialized knowledge in the field of vehicle engineering. Our graduates will be able to participate in vehicle research and development programs as well as in vehicle design, production, and maintenance. The educational program prepares the students to further their studies in post graduate educational and research programs in the field of vehicle engineering and multidisciplinary sciences. The goal of the Vehicle Engineering masters program is to educate future engineers to have general knowledge in natural and engineering sciences and high level, specialized knowledge in the field of vehicle engineering. Our graduates will be able to participate in vehicle research and development programs as well as in vehicle design, production, and maintenance. The educational program prepares the students to further their studies in post graduate educational and research programs in the field of vehicle engineering and multidisciplinary sciences.

Structure of studies

The total number of credits needed to complete the programme is 180 credits. The courses of the program are divided into three categories: compulsory courses, thesis courses and elective courses.

1 credit equals one ECTS credit, and 1 credit is defined as 25 student working hours.
