Short bio				
<p>Sándor Remsei got his first degree in electrical engineering, but he started his career in the field of foreign trade. He can claim more than 30 years of professional and corporate experience.</p> <p>He has been active in higher education since 1996. Has been working as a full-time university lecturer since 2004. He has been teaching economics (macro- and microeconomics) and foreign trade since the beginning of his university career, but his portfolio has also included economic policy, management and marketing subjects over the years. He has been involved in the work of the Doctoral School of Regional- and Business Administration Sciences at SZE since its foundation. In addition to education, he has worked in major projects (e.g. CENTROPE, TOP) and was the national coordinator of the "Teachers Intercultural Competences as Keystone to Learning in Europe" project.</p> <p>He has presented at many international conferences. In the beginning, his main topic was the trade of agricultural products and crops, later the issues of biofuel production, and he is happy to make minor detours if he finds a topic interesting.</p> <p>Since 2022, he has been the head of the Department of International and Applied Economics.</p> <p>Since 2023 he has been the dean of Kautz Gyula Faculty of Business and Economics.</p>
