

Management of Finances on Neptun

In the Neptun Net System students have to transfer money to the collective account of the University in order to make payments.

The university's bank account information:

Name of the account	Neptun Hallgatói Gyűjtőszámla
Bank account	10300002-10801842-00024907
Name of the bank	MKB Bank Nyrt.
Name of the beneficiary	Széchenyi István Egyetem
IBAN	HU54 10300002-10801842-00024907
Remarks	NK-YourNEPTUNcode YourNAME in the format of the Neptun (For example: NK-AAA111 Smith John)

Please be aware that this is only a transmitting body, you need to complete the payment in the Neptun system.

After this, announced items can be paid on the student web under the menu item "payments".

Attention! Even though the remitted amount of money appears on your balance on Neptun, it will not necessarily mean that you have already accomplished the required transaction.

Firstly, you have to order the actual payment be done on Neptun under the adequate menu item (IV fee, costs of special procedure, tuition fee etc.) in order to settle your remittance.

You can find information on how to use the system in the file on the Neptun website (<https://netw6.nnet.sze.hu/hallgato/login.aspx>)

If you need more information regarding the usage of the Neptun system, please contact your mentor.
